Mar Demo

The March Demo was presented by Charles Watson. He showed how to turn a cube into a hollow vessel by turning each side and then hollowing out the inside. This required the use of a set of wooden jaws the he made for that purpose that holds the piece securely for turning.

March Treasury Report

Beginning Balance	\$3259.17
Deposits and Interest	.60
Expenses	122.50
Ending Balance	\$3137.27

Misc

We are scheduling our Youth Wood Turning Program for the week of June 6-10. This year we will hold classes at the Bell Community Center from 9 am to 3 pm for five days. We are looking for volunteers to help teach the kids. We need help watching the kids to make sure they understand the lesson and not get hurt. Your help will be a service to the club and be satisfying to you. You don't have to be an expert for this job.

The Demo-Sale day is coming up in July. We will need weed pots that will be given to visitors to the event. If you have pieces of wood that is suitable for weed pots, it's not too early to start making a few for the Demo-Sale. They are good practice when you don't have anything else you want to turn at the moment and just want to turn something. If you need wood for weed pots we have plenty-just ask.

Rudy Lopez has become a well known turner. He will present a special day of turning on Saturday May 7, 2011. Rudy's specialty is natural edge turnings i.e. bowls, platters, and goblets. Check out the flier on our website www.bellwoodturners.com. The all day session will be \$20 and that includes lunch. (\$25 for nonmembers.)
