

BELL WOODTURNERS

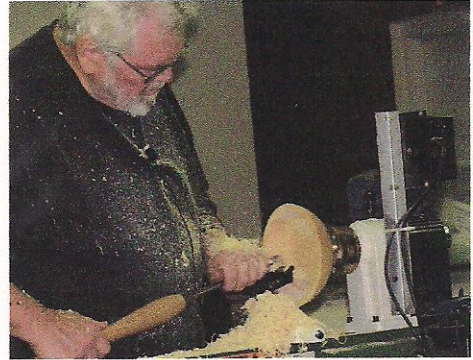

MARCH 10, 2011

FEB Demo

The February Demo was presented by Greg Lucas. Greg turned a bowl emphasizing the basics of mounting the wood on the lathe and then turning that wood into a bowl. Thanks to Greg for stepping at the last minute after the scheduled turner could not be here due to injuries.

February Treasury Report

Beginning balance Nov	\$4123.66
Deposits & Interest	196.76
Expenses	1061.25
Ending Balance	\$3259.17

Coming Events

We are scheduling our Youth Wood Turning Program for the week of June 6-10. Last year we met for 3 hours two Saturdays a month. That turned out to be a problem with the kids forgetting too much between sessions and during the summer when many of the some were out of town on vacation. This year we will hold classes at the Bell Community Center from 9 am to 3 pm for five days. We hope for better attendance and better retention of subject matter. We are looking for volunteers to help teach the kids.

The Demo-Sale day is coming up in July. We will need weed pots that will be given to visitors to the event. If you have pieces of wood that is suitable for weed pots, it's not too early to start making a few for the Demo-Sale. They are good practice when you don't have anything else you want to turn at the moment and just want to turn something.

The annual woodworking show at the Florida State Fair Grounds is March 18-20. Friday is 12-6, Saturday is 10-6, and Sunday is 10-4. Additional information at "thewoodworkingshows.com".

The club now has a Delta 16-42 lathe for demonstrations. If you have a project you would like to demo and need the larger lathe contact one of the board members. We can have this lathe set up for the demo if you ask for it ahead of time.
