January 12, 2012

November Demo

The November Demo was presented by Richard Wood. He demonstrated the making of a Christmas angel on the lathe. Starting with a three inch blank he turned it down forming the head and body using various tools. After cutting off the angel, he turned a disk from the remaining wood. He finished the piece by wet sanding it with his own mixture of wax and mineral oil. He attached the halo disk and added a screw eye for hanging it on the Christmas tree.

December Treasury Report

Beginning Balance	\$4020.42
Deposits and Interest	47.63
Expenses	240.00
Ending Balance	\$3828.05

FYI

We finished 2011 with the Christmas party in December, which everyone that attended enjoyed. Thanks to Kent Harriss for providing the meat for the meal. Also thanks to everyone that brought a dish of various other good foods.

Richard Wood and Charles Watson provided guidance for a session with our 4-H group on the Thursday after Christmas. All the kids successfully completed a three legged stool during the all-day session.

The Florida Woodturning Symposium will be February 3-5, 2012. Still time to get registered. Go to www.floridawoodturningsymposium.com online for details.
